

DUI PRIVACY STATEMENT

Business partners

General

When networking, negotiating or entering into agreements with Dutch United Instruments B.V. (DUI), all of DUI's business partners provide DUI with personal data. You may do so while representing your employer, for instance. Some of the data with which you provide us may nevertheless constitute personal data (such as your business and personal email addresses). DUI then processes the personal data that it receives (for instance by saving, consulting and retaining them). That data processing is necessary to contact you, also in the future, to perform agreements, to keep you informed of important developments at DUI and to invite you to events organised by DUI. DUI is part of the DEMCON group. Accounting – and therefore the processing of your personal data – has been centralised within the DEMCON group. Where DEMCON is stated in this privacy statement, the whole DEMCON group including DUI is meant.

The increasing volume of data processing has led to increasing awareness of the importance of the data protection. DEMCON therefore wishes to inform you about the processing of your personal data at DEMCON. This privacy statement has been drawn up for that purpose.

This privacy statement applies to all of DEMCON's business partners.

Controller

As stated above, DUI is part of the DEMCON group and accounting – and therefore the processing of your personal data – has been centralised within the DEMCON group. That centralised processing may be performed by employees who are formally employed at one of several DEMCON companies. All of those companies can be regarded as controllers. One of them has been designated within the DEMCON group as the principal controller. The details of that company are stated below:

DEMCON advanced mechatronics B.V.

Tel: 088-115 2000

The contact regarding the processing of your data is the PR department, which can be reached at privacy@demcon.nl.
